
CURTIS SULLIVAN

Diamond Drill Operator

Guyana | +592 628 0229 | curtis7568@yahoo.com | sullivan.gy

Guyanese drill operator with production drilling, diamond exploration drilling and practical operator training experience. Work history includes mining in Guyana and Mauritania and airport construction in Greenland. Currently a Diamond Drill Operator with Orbit Garant Drilling at Omai, Guyana, since March 2026.

DRILLING METHODS

Diamond core drilling: BQ and NQ sizes, with holes commonly deeper than 300 metres in challenging ground at Guelb.

Production and blast-hole drilling: mine operations at Omai and Aurora and airport construction in Nuuk and Ilulissat. Operation of Epiroc SmartROC T40 rigs and assistance with charging blast holes.

Rotary drill equipment: electrical, hydraulic, mechanical and operation training for Sandvik D45KS rotary drills. Equipment experience also includes Driltech C40K and Ingersoll-Rand DML and DM45.

TRAINING AND SUPERVISION EXPERIENCE

Diamond Drill Trainer at Mauritanian Copper Mines. Practical instruction of junior drillers and blasters, drill-team leadership and oversight of drilling, loading, stemming and tying in blasts at Aurora. Acting foreman and drill-and-blast leadhand duties at Omai from 2002.

CURRENT AND MOST RECENT EMPLOYMENT

Diamond Drill Operator | Orbit Garant Drilling

Mar 2026 - Present | Omai, Guyana

Diamond exploration drilling at Omai, Guyana.

Drill Operator | Munck Civil Engineering A/S

9 Oct 2020 - 18 Dec 2025 | Nuuk and Ilulissat, Greenland

Operated Epiroc SmartROC T40 drill rigs on international airport construction projects. Also operated articulated dump trucks and assisted with charging blast holes.

EMPLOYMENT HISTORY

Drill Operator | Orbit Garant Drilling Inc (OBGRF)

Oct 2019 - Oct 2020 | Guyana Goldfields, Guyana

Exploration drilling at Guyana Goldfields.

Diamond Drill Trainer | First Quantum Minerals

Aug 2018 - Oct 2019 | Mauritanian Copper Mines (MCM), Mauritania

Diamond exploration drilling and operator training at Mauritanian Copper Mines. BQ and NQ core drilling at Guelb, with holes commonly deeper than 300 metres.

Drill Operator | Dynamitage Castonguay / Castonguay Blasting

May 2018 - Aug 2018 | Guyana Goldfields, Guyana

Production drilling at Guyana Goldfields.

Drilling and Blasting Supervisor | Guyana Goldfields Inc.

Feb 2018 - May 2018 | Aurora, Guyana

Production drilling and blasting supervision, leadership of drill and blast crews and practical instruction of junior drillers and blasters.

Drill Operator | Guyana Goldfields Inc.

Dec 2015 - Feb 2018 | Aurora, Guyana

Production drilling at Aurora using Caterpillar and Sandvik drills.

Drill Operator | ExploService Guyana Inc.

Jul 2015 - Dec 2015 | Troy Resources, Karouni Project, Guyana

Production drilling at the Karouni Project.

Drill Operator | West Bank Demerara Gold

May 2013 - Mar 2014 | Cuyuni, Guyana

Exploration drilling in Cuyuni.

Drill Operator | Prometheus Resources (Guyana) Inc. / U308 Corp

Mar 2007 - Apr 2013 | Mazaruni, Guyana

Uranium exploration drilling in Mazaruni.

Drill Operator | Major Drilling

Jun 2005 - Feb 2007 | Omai Gold Mines, Guyana

Exploration drilling at Omai Gold Mines.

Mine Helper, Drill Operator and Drill-and-Blast Leadhand | Omai Gold Mines / IAMGOLD Corporation

Jun 1996 - Oct 2004 | Guyana

Joined as a mine helper in June 1996, progressed to production drill operator in September 1997 and undertook acting foreman and drill-and-blast leadhand duties from 2002.

TRAINING & EQUIPMENT

COMPLETED TRAINING

D45KS Sandvik rotary drill training

Reedrill Techniques LLC | 20-28 May 2017

Electrical, hydraulic, mechanical and operation training.

MD5075 hydraulic track drill training

Reedrill Techniques LLC | 18-25 September 2016

Electrical, hydraulic, mechanical and operation training.

MD5075 hydraulic track drill training

Caterpillar Global Mining Equipment LLC | 2-6 March 2015

Electrical, hydraulic, mechanical and operation training.

One-day fire safety seminar

Guyana Fire Service | 17 November 2007

One-day fire safety training.

Certificate of competency

Omai Gold Mines Ltd | April 2003

Driltech C40K4, Ingersoll-Rand DML and DM45, CAT 777 haul truck and safe handling of explosives.

Phil: The Three Pillars

Praxcim | 27-28 November 2002

16-hour course on company values, behaviour, service and performance.

EDUCATION

High school diploma, September 1991.

EQUIPMENT EXPERIENCE

Driltech C40K; Ingersoll-Rand DML and DM45; Caterpillar MD5075; Furukawa HCR 1200 ED11; Sandvik D45KS; Epiroc SmartROC T40.

TO WHOM IT MAY CONCERN

This is to confirm that Mr. Curtis Sullivan of 2126 Block 8 Tuschen, East Bank Essequibo has been employed by Prometheus Resources (Guyana) Inc. from March 2007 to April 2013 in the capacity as Driller.

Prometheus Resources (Guyana) Inc is a wholly owned subsidiary of a Canadian Uranium exploration Company, U308 Corporation, which trades on the Toronto Stock Exchange under the symbol "UWE".

Mr. Curtis has always demonstrated a high level of commitment and dedication towards his work. He is also an honest and disciplined individual.

I therefore have no hesitation in recommending Mr. Curtis to seek employment with any company he wishes, and should he be hired, I trust that he will prove himself an asset to your company

All for your information and guidance.

Yours sincerely

PROMETHEUS RESOURCES (GUYANA) INC

Country Manager

OMAI GOLD MINES LIMITED
Mining With The Environment in Mind

October 4, 2004

To Whom It May Concern:

REF: MR. CURTIS SULLIVAN

Mr. Curtis Sullivan joined Omai Gold Mines Ltd in June of 1996 as a Mine Helper, Trainee and was attached to the Mine Operations department.

Mr. Sullivan was subsequently promoted to the position of Mine Helper, Level 1. In this capacity, he was responsible for collecting bore hole cuttings for assay laboratory analysis to provide data to the Geology Department for grade control purposes.

In September of 1997, he was promoted to the position of Production Drill Operator, Level 1. He was trained and certified to operate C40K 4H and DM45 drills and in November of 1997 completed a Basic Blaster Training Course.

In 2002, Mr. Sullivan began functioning in the capacity of Acting Foreman; he was subsequently made the Drill and Blast Leadhand for his shift. He was required to assist in the coordination of all Drill and Blast operations.

Mr. Sullivan functioned in this capacity until October 2004 when depleted reserves brought an end to the mine life, causing a reduction in the workforce. Mr. Sullivan accepted a redundancy package earned by him for his years of service.

Having worked closely with Mr. Sullivan for a number of years, I would not hesitate to be his reference and attest to his honesty, integrity, and good solid work ethics. He always displayed accuracy, high quality work, and adhered to the safe operating procedures of the mine. I believe he always gave his best as required.

Should further reference be required, please do not hesitate to contact me.

Sincerely,

Keith Daniels
Mine General Foreman

June 26, 2018

Thomas Branch - 2nd

Senior Geology Specialist with Endeavour Mining

February 15, 2020, Thomas managed Curtis directly

Curtis was one of our most senior diamond drillers at Guelb when I was working as Acting Chief Geologist during the period 2018-2019. Despite working conditions being extremely challenging; he remained a hard working, calm and respected senior driller. Drilling was dominated by BQ to NQ, with hole depths commonly >300m, often in structurally challenging ground, including from waste dumps.

Letter of Recommendation

To Whom it May Concern:

While working as the Mine Manager for AGM, Inc. for the past year I have had the pleasure of working with Curtis Sullivan, one of our standout Drillers. Curtis also filled the responsibilities of a leadman for several months. Mr. Sullivan exhibits a high-level competence drilling with both the Cat and Sandvik drills. He works to assure drilling is completed in accordance with established procedures, per the engineering design, with a high level of quality. Curtis' responsibilities as leadman also included the blast crew where he led the crew in loading, stemming and tying in blasts to meet production goals.

Mr. Sullivan demonstrates a high level of safety for himself, his crew and others who work with him. He shares his ability and knowledge with more junior employees to help them become more competent drillers and blasters. Curtis has earned the respect of his crew and those he works with as someone who can be trusted to consistently accomplish the daily tasks in a safe and productive manner. Mr. Sullivan's commitment, work ethic and competence in completing the daily tasks associated with drilling and blasting is commendable.

Curtis maintains a high standard of safety, is dependable, trustworthy, knowledgeable, committed, engaged, works well with his peers and management along with others across the organization. He leads by example, is a pleasure to work with and consistently shares his knowledge with others. Mr. Sullivan is a team player who contributes readily to the AGM success.

Sincerely,

Clyde Gillespie
AGM Mine Manager

RE: Service Letter

Dear Mr. Curtis Sullivan.

I am writing to acknowledge your service as a drill rig operator at Munck Civil Engineering Greenland a/s. Your employment with us began on 10-08-2020 and will conclude on 16-12-2023. Your contributions to the Nuuk International Airport project have been valuable and helped us reach our project targets, which included drilling and blasting of over 6.000.000 m³ of rock.

Throughout your tenure, you have displayed a high skill level as a Drill rig operator, where you have been the operating an Epiroc Smartroc T40 . You have shown a high level of production efficiency and by following service protocol have helped minimize machine downtime, and your commitment to safety protocols has ensured a secure working environment.

It is noteworthy to mention that your willingness to work night shifts in the extreme cold climate of Greenland reflects your dedication and resilience. Your ability to perform under challenging conditions showcases your professionalism and has been a key factor in maintaining the operational continuity of our projects.

We appreciate your hard work and dedication to excellence during your time with us and wish you the best in your future endeavors.

Yours sincerely
Munck Civil Engineering Greenland a/s

Einar Þór Stefánsson
Drill and blast Supervisor

Christos Koniaris
Drill and blast project manager

Date: 16-12-2025

Recommendation - Curtis Cornelius Sullivan

To Whom It May Concern,

Curtis Cornelius Sullivan worked for Munck Civil Engineering A/S on the international airport projects in Nuuk and Ilulissat from 09 October 2020 to 18 December 2025. The project involved blasting approximately 6 million bank cubic meters of rock, to produce material and create space for the runway construction.

As an operator of our Epiroc Smartroc T40 drill rigs, Curtis demonstrated excellent skills in handling the equipment and navigating it in challenging terrain. He consistently met production targets and delivered blastholes of high quality, while taking good care of the machinery. In addition to drilling he has been operating articulated dump trucks and assisted with charging blast holes when needed.

Curtis has been a valued member of our team, showed great professionalism with every task and was well regarded by his colleagues. I can therefore highly recommend Curtis as a drill rig operator for any drill and blast operation.

Please do not hesitate to contact me should you have any queries or need any further clarification.

Kind Regards,
Munck Civil Engineering A/S

Mikkel Hovgaard, Production Manager
